HYDROBIOLOGICAL JOURNAL

VOLUME 41

CONTENTS FOR 2006

Number 1

A. A. Protasov. Communities of Invertebrates of the Cooling Pond of the Chernobyl Nuclear Power Station. Report 1. Communities of Zooplankton, their Composition and Structure 3

Yu. V. Pligin. Formation and Modern State of Macrozoobenthos of the Kanev Reservoir 22

V. I. Shcherbak & N. N. Korneychuk. Contour Algae Communities of Stones of the Teterev River Downstream of the Town of Zhitomir in Various Seasons 42

Ye. V. Starosila & G. N. Oleynik. Catalase Activity of Bottom Sediments Contaminated by Mineral Nitrogen of Ponds 47

V. A. Medved', N. N. Smirnova, Yu. I. Ivanova & Z. N. Gorbunova. Nitrate Reductase Activity of Macrophytes under Anthropogenic Pollution 57

T. V. Pinkina. Effect of the Ionic Form of Cadmium on Reproduction and Development of *Lymnaea stagnalis* L. 68

O. B. Stolyar, A. Ye. Mudraya & G. I. Falfushinskaya. The Antioxidant Protection System of Hepatopancreas of *Astacus leptodactylus* as a Biomarker of Water Pollution with Heavy Metal Ions 75

D. I. Gudkov, S. F. Uzhevskaya, A. B. Nazarov, L. A. Kolodochka, T. N. Dyachenko & N. L. Shevtsova. Lesion in Common Reed by Gall-Producing Arthropods in Water Bodies of the Chernobyl NPP Exclusion Zone 82

O. N. Davydov, L. Ya. Kurovskaya, Yu. D. Temnikhanov & R. Ye. Bazeyev. Ichthyopathological Situation in the Dnieper Reservoirs under Anthropogenic Impact 89

M. I. Kaveshnikov & L. V. Yanygina. A New Model of Sampler for Quantitative Analysis of Riverine Zoobenthos 102

A. D. Vyskushenko. Effects of Copper Sulfate and Zinc Chloride on *Lymnaea stagnalis* L. 107

Number 2

Ye. V. Pavlova & Ye. B. Melnikova. Changes in the Quantitative Indices of Development of Viable Zooplankton of Sevastopol Bay in 1998–1999 (Crimea, the Black Sea) 3

A. A. Protasov & A. A. Silayeva. Communities of Invertebrates of the Cooling Pond of the Chernobyl Nuclear Power Station. Report 2. Communities of Zooperiphyton, Their Composition and Structure 13

N. V. Denisova & F. B. Shkundina. Assessment of the Degree of Anthropic Eutrophication of Floodplain Lakes in terms of Phytoplankton 31

V. I. Shcherbak, L. A. Sirenko & Yu. S. Kuzminchuk. Peculiarities of Phytoplankton Development in the Head and Tail Waters of Lowland Reservoirs (on the Example of the Teterev River) 41

V. M. Sabodash & K. V. Demyanenko. The Current State and Reproduction of Sturgeon Fish Population in the Sea of Azov Basin: A Review 50

M. P. Boytsov & S. V. Sentihcheva. Peculiarities of Natural Reproduction of Fishes and Food Resources in an Unregulated Section of the Volga River 69

A. P. Stadnichenko, G. Ye. Kirichuk, L. D. Ivanenko & A. M. Kirichuk. Effect of Different Concentrations of Cadmium Bromide on Physicochemical Properties of Hemolymph in *Planorbarius purpura* (Mollusca: Pulmonata: Bulinidae) 79

G. G. Munteanu & V. I. Munteanu. Biomonitoring of Some Heavy Metals in the Dubossary (Dubăsari) Reservoir 87

V. N. Pautova & V. I. Nomokonova. Dynamics of the Chlorophyll *a* Content in Phytoplankton of the Kuybyshev Reservoir 102

O. V. Pashkova. Structuredness of Aquatic Organisms' Communities as a Basis of Their Existence (a Case Study of Shallow-Water Near-Bottom Zooplankton) 110

Number 3

A. A. Protasov & A. A. Silayeva. Communities of Invertebrates of the Cooling Pond of the Chernobyl NPS. Report 3. Communities of Zoobenthos, Their Composition and Structure 3

G. N. Minayeva. Diversity of Phytoplankton in the Lower Reaches of the Dnieper River 24

A. V. Kureyshevich & V. A. Medved. Assessment of Relationship between the Content of Chlorophyll *a* and the Content of Phosphorus in the Water of the Dnieper Reservoirs 33

Yu. G. Krot. The Use of Higher Aquatic Plants in Biotechnologies of Surface Water and Wastewater Treatment 44

R. P. Kandyuk. Sterols and Their Functional Role in Mollusks (a Review) 56

V. N. Maksimov & T. V. Parshikova. Influence of Surfactants on the Photosynthetic Activity of Algae 67

D. V. Lukashev. Monitoring of Contamination of the Ecosystem of the Dnieper River within the Town of Kiev by Heavy Metals Using Freshwater Mollusks 77

V. M. Timchenko, O. P. Oksiyuk & O. V. Timchenko. Methodical Aspects of Regulation of Oxygen Conditions in River Sections of Dnieper Reservoirs in Summer (a Case Study of the Kiev Section of the Kanev Reservoir) 89

V. I. Lavrik & V. N. Bogolyubov. Management of the Surface Runoff Quality with the Aid of Mathematical Modeling of Self-Purification Processes 98

Number 4

A. A. Kovalchuk. Ciliata, Other Protozoa, and Micoinvertebrates of Floodplain Water Bodies of the Dnieper Reservoirs 3

O. S. Tarashchuk. Epiphyton Algae Groups of *otamogeton crispus* L. within the River Section of the Kanev Reservoir 37

N. S. Kostenko, Ye. A. Dikiy & A. A. Zakletskiy. Present-Day State of Macrophytobenthos of Shelf Zones of the Black Sea (Southeastern Crimea) 45

V. I. Yermolayev & L. S. Vizer. Peculiarities of Plankton of Lake Chany (the Western Siberia, Russia) 52

N. I. Kirpenko, V. A. Medved & T. F. Shevchenko. Peculiarities of the Response of Plankton Algae to the Substances Extracted from the Rhizome of *Nuphar lutea* (L.) Smith 62

N. G. Kosolapova, Z. M. Mylnikova & D. B. Kosolapova. Trophic Structure of a Microbial Community in a Small River 74

V. D. Romanenko, A. I. Sakevich & O. M. Usenko. On the Mechanism of Action of Easily Oxidizable Phenols on Photosynthetic Activity of Algae 82

O. P. Oksiyuk & O. A. Davydov. Principles of Methods for the Assessment of the Ecological Status of Water Bodies using Microphytobenthos 93

Number 5

N. G. Sergeyeva & S. A. Mazlumyan. Meiobenthos of the Northwestern Shelf of the Black Sea in the Vicinity of the Zernov *Phyllophora* Field 3

L. V. Shevtsova & A. I. Tsybulskiy. Distribution of *Theodoxus fluviatilis* L. in the Dniester River and the Influence of the Hydroelectric Power Stations on the Structure of its Population 12

V. I. Shcherbak & N. N. Korneychuk. Influence of Hydrological and Morphological Characteristics of the Teterev River on the Structure of Phytomicroepilithon 25

I. A. Govorin. The Role of Mussels from Biofouling of Coast-Protecting Hydraulic Facilities in Forming of Microbiological Characteristics of the Marine Environment in the Beach Water Area 39

Ye. V. Starosila. New Methods and Directions of Research in Aquatic Microbiology 48

O. B. Mekhed. Accumulation of Herbicides of the 2,4-D Group in Organisms of Carps of Different Ages 57

Yu. N. Khudiyash, V. I. Adonin, A. S. Potrochov & O. G. Zinkovskiy. Teratogenic Effect of N-Oxide Dimethylpyridine on Embryos of Silver Carp, *Hypophthalmicus molitrix* Valenciennes 63

O. L. Zarubin. Quantitative Characteristics of the Ways of ^{137}Cs Influx into the Organism of *Cyprinus carpio* (L.) and *Ictalurus punctatus* (Raf.) in the Cooling Pond of the Chernobyl NPS 70

V. M. Timchenko. Ecological Hydrology of Dnieper Reservoirs 76

P. N. Linnik. Effect of Various Factors on Metal Desorption from Bottom Sediments under Conditions of Experimental Simulation 91

Number 6

V. D. Romanenko, D. I. Gudkov, V. G. Klenus, V. V. Belyayev, Ye. N. Volkova, M. I. Kuz'menko, A. Ye. Kaglyan, Z. O. Shirokaya. Hydroecological Lessons of the Disaster at the Chernobyl Nuclear Power Plant 3

V. I. Shcherbak, L. A. Sirenko & Yu. S. Kuzminchuk. Dynamics of Chlorophyll *a* Content Depending on Phytoplankton Structure (on the Example of the Teterev River) 35

A. V. Kureyshevich. Influence of Biologically Active Exometabolites of Algae on Organic Matter Decomposition 47

L. Ya. Kurovskaya. Effects of Aerosil Sorbent on Physiological and Biochemical Parameters of Carp Yearlings 54

I. V. Grib, N. I. Goncharenko & D. I. Voytyshina. Saponin as a Factor of Mass Fish Mortality in the Rivers of Ukraine 61

T. V. Parshikova & T. Yu. Shchegoleva. Using EHF-Dielectrometry for Estimation of Viability of Some Microalgae at the Presence of Catamine 72

N. I. Kirpenko, V. F. Kovalenko & O. V. Balanda. Effects of the Alkaloid Complex of *Nuphar lutea* (L.) Smith on the Survival of Carp Underyearlings 85

G. Ye. Kirichuk. Peculiarities of Accumulation of the Ions of Heavy Metals in the Organism of Freshwater Mollusks 93

A. A. Morozova. Main Tendencies for Changes in Water Quality in the Lakes of the Shatsk National Nature Park 104

Contents for 2006 111
